Digital Commons @ Michigan Tech Project Proposal Guidelines

The Van Pelt and Opie Library invites proposals from Michigan Tech faculty, researchers, staff and students for new projects to be included in Digital Commons @ Michigan Tech repository.

Project Proposal must include (up to one page):

1. Project leader contact information (name, email, and phone number)

2. Sponsoring unit

3. Briefly describe the proposed project emphasizing the content to be added to the repository. Demonstrate that the nature of the proposed content represents the research, scholarship, publications or original works of enduring value produced at Michigan Technological University by current faculty, students or staff.

Please submit project proposals to digitalcommons@mtu.edu.

Proposals will be reviewed for consistency with the content policy and availability of appropriate resources. Following approval of the proposal, the project leader(s) will be asked to complete a project plan. A guideline for project plans can be found here.
