Hello,

I am a graduate student at Michigan Technological University. My thesis focuses on the water quality in Cleveland, OH and the introduction of my thesis discusses the history of Cleveland and the Cuyahoga River. With your permission, I would like to include an image of the Cuyahoga River fires from the Ohio History Central website (http://www.ohiohistorycentral.org/w/Cuyahoga_River_Fire?rec=1642). Following your permission, I will use the photo with proper citation to Cleveland State University.

Please let me know if you support this use of the photo.

Thank you,

Nathan Zgnilec

Mr. Zgnilec,

You are perfectly welcome to use the low-res version of this image as found at the website below. If you do, we would like it if you would acknowledge that the photo was taken by James Thomas for the Cleveland Press, and is now part of the Cleveland Press Collection at the Michael Schwartz Library at Cleveland State University.

We can provide you with a hi-res (600 DPI) version of this photo for a $25 fee. If you are interested, please write me back.

Vern Morrison
Digital Production Unit Coordinator
