- **When is permission to reuse IEEE required?**

As a general rule, IEEE requires permission be sought to reproduce any substantial part of its intellectual property, including any text, illustrations, charts, tables, photographs, or other material from previously published sources used. IEEE also requires that all references or sources used be credited, whether or not permission is required. For further guidance, please contact pubs-permissions@ieee.org.

- **From whom do I need permission?**

Permission must be sought from IEEE to reuse its intellectual property. In most cases this will mean locating the material you wish to reuse in IEEE Xplore, where you will find a “request permission” link either on the Table of Contents or on the Article Abstract Page.

- **What if I do not see the “Request Permission” link on either the Table of Contents or the Abstract Page in Xplore?**

If you do not see a permission link on the Abstract Page, we recommend you review the front cover and/or the copyright page in the document itself (often, these pages are freely available for viewing in Xplore) in order to determine copyright owner. If you are unsure, please contact pubs-permissions@ieee.org.

- **Does IEEE require individuals working on a thesis or dissertation to obtain formal permission for reuse?**

The IEEE does not require individuals working on a thesis to obtain a formal reuse license, however, you must follow the requirements listed below:

Textual Material

Using short quotes or referring to the work within these papers) users must give full credit to the original source (author, paper, publication) followed by the IEEE copyright line © 2011 IEEE.

In the case of illustrations or tabular material, we require that the copyright line © [Year of original publication] IEEE appear prominently with each reprinted figure and/or table.

If a substantial portion of the original paper is to be used, and if you are not the senior author, also obtain the senior author's approval.

Full-Text Article

If you are using the entire IEEE copyright owned article, the following IEEE copyright/ credit notice should be placed prominently in the references: © [year of original publication] IEEE. Reprinted, with permission, from [author names, paper title, IEEE publication title, and month/year of publication]

Only the accepted version of an IEEE copyrighted paper can be used when posting the paper or your thesis on-line.

In placing the thesis on the author's university website, please display the following message in a prominent place on the website: In reference to IEEE copyrighted material which is used with permission in this thesis, the IEEE does not endorse any of [university/educational entity's name goes here]'s products or services. Internal or personal use of this material is permitted. If interested in reprinting/republishing IEEE copyrighted material for advertising or promotional purposes or for creating new collective works for resale or redistribution, please go to http://www.ieee.org/publications_standards/publications/rights/rights_link.html to learn how to obtain a License from RightsLink.

If applicable, University Microfilms and/or ProQuest Library, or the Archives of Canada may supply single copies of the dissertation.

- **If I want to republish an article in another language do I still need to obtain a license from IEEE?**

If you are republishing IEEE intellectual property, we do require you obtain a license that includes any translations. The required translation disclaimer and other translation guidelines are available in the IEEE Terms and Conditions contained in the license provided by the Copyright Clearance Center (RightsLink service).

- **How do I obtain permission to use photographs or illustrations?**

IEEE does not always own reproduction rights to photographs or illustrations; rather, such rights may have been retained by the photographer or illustrator. If the source from which the material is borrowed does not indicate who owns reproduction rights, users of these photographs or illustrations are required to locate the rightsholder, directly.

- **Do I need to obtain permission to use IEEE material posted on its website?**

Yes. As a general rule, most material found on the internet is protected by copyright law even if a notice is not displayed. IEEE does require that you inquire about such permission before using any material found on all IEEE copyright owned websites.

- **Does IEEE require certain rights when requesting permission to use material in an IEEE work?**

IEEE does allow permission to reuse small portions of text in another IEEE copyright owned document only (e.g., the equivalent of several paragraphs only) and figures. Our only requirement is that you 1) provide full credit information pertaining to the original IEEE publications (e.g., author name, paper title, publication title, month and year of original publication). Requests for permission to reuse larger portions should be sent to pubs-permissions@ieee.org.

- **What is Rightslink®?**

Rightslink® is the Copyright Clearance Center's automated permissions granting service, which is used by IEEE along with many other STM publishers such as Springer, Elsevier, and Taylor & Francis. Through this permission service, customers can request permission for IEEE Periodical and Conference content from the point of access; (normally found on the abstract page of the individual article, in IEEE Xplore).

- **Is IEEE an STM signatory publisher?**

No, IEEE is not a signatory to the STM (International Association of Scientific, Technical & Medical Publishers) Permissions Guidelines, last updated February 2012.

Hi,

I am a graduate student (Electrical Engineering) at Michigan Technological University and writing a thesis on topic 'A Comparative Study of Sigma Delta and Non Uniform Sampling A/D Converters'. I am willing to use three figures 'figure no. 1, 3 and 6' from "How delta-sigma ADCs work Part 1" found at <http://www.ti.com/lit/an/slyt423/slyt423.pdf>.

The thesis will be published electronically by the university via Proquest.
I am requesting for permission to use those figures in my thesis.

Introduction

The publisher for this copyrighted material is Springer. By clicking "accept" in connection with completing this licensing transaction, you agree that the following terms and conditions

apply to this transaction (along with the Billing and Payment terms and conditions established by Copyright Clearance Center, Inc. ("CCC"), at the time that you opened your Rightslink account and that are available at any time at <http://myaccount.copyright.com>).

Limited License

With reference to your request to reuse material on which Springer controls the copyright, permission is granted for the use indicated in your enquiry under the following conditions:

- Licenses are for one-time use only with a maximum distribution equal to the number stated in your request.

- Springer material represents original material which does not carry references to other sources. If the material in question appears with a credit to another source, this permission is not valid and authorization has to be obtained from the original copyright holder.

- This permission

- is non-exclusive

- is only valid if no personal rights, trademarks, or competitive products are infringed.

- explicitly excludes the right for derivatives.

- Springer does not supply original artwork or content.

- According to the format which you have selected, the following conditions apply accordingly:

- **Print and Electronic:** This License include use in electronic form provided it is password protected, on intranet, or CD-Rom/DVD or E-book/E-journal. It may not be republished in electronic open access.

- **Print:** This License excludes use in electronic form.

- **Electronic:** This License only pertains to use in electronic form provided it is password protected, on intranet, or CD-Rom/DVD or E-book/E-journal. It may not be republished in electronic open access.

For any electronic use not mentioned, please contact Springer at permissions.springer@spi-global.com.

- Although Springer controls the copyright to the material and is entitled to negotiate on rights, this license is only valid subject to courtesy information to the author (address is given in the article/chapter).

- If you are an STM Signatory or your work will be published by an STM Signatory and you are requesting to reuse figures/tables/illustrations or single text extracts, permission is granted according to STM Permissions Guidelines: <http://www.stm-assoc.org/permissions-guidelines/>

For any electronic use not mentioned in the Guidelines, please contact Springer at permissions.springer@spi-global.com. If you request to reuse more content than stipulated in the STM Permissions Guidelines, you will be charged a permission fee for the excess content.

Permission is valid upon payment of the fee as indicated in the licensing process. If permission is granted free of charge on this occasion, that does not prejudice any rights we might have to charge for reproduction of our copyrighted material in the future.

-If your request is for reuse in a Thesis, permission is granted free of charge under the following conditions:

This license is valid for one-time use only for the purpose of defending your thesis and with a maximum of 100 extra copies in paper. If the thesis is going to be published, permission needs to be reobtained.

- includes use in an electronic form, provided it is an author-created version of the thesis on his/her own website and his/her university's repository, including UMI (according to the definition on the Sherpa website: <http://www.sherpa.ac.uk/romeo/>);

- is subject to courtesy information to the co-author or corresponding author.

Geographic Rights: Scope

If full payment is not received by the date due, then any license preliminarily granted shall be deemed automatically revoked and shall be void as if never granted. Further, in the event that you breach any of these terms and conditions or any of CCC's Billing and Payment terms and conditions, the license is automatically revoked and shall be void as if never granted. Use of materials as described in a revoked license, as well as any use of the materials beyond the scope of an unrevoked license, may constitute copyright infringement and Springer reserves the right to take any and all action to protect its copyright in the materials.

Copyright Notice: Disclaimer

You must include the following copyright and permission notice in connection with any reproduction of the licensed material:
