Dear Irene,

I am a masters student in mechanical engineering , studying at Michigan Technological University, USA. I am doing my thesis research regarding heat transfer analysis in fast pyrolysis reactors under the guidance of Dr. Ezra Bar Ziv from the MEEM department at Michigan Technological University. I would like to request permission to use the figure titled "Methods of heat transfer to a pyrolysis reactor" from the webpage with URL "http://www.pyne.co.uk/?_id=69" for my thesis publication.

Kindly let me know if more information is required

Thank you
Best RegardsAnkith Ullal

Dear Ankith,

Many thanks for your email. That will be fine. Please can you ensue that you use a suitable acknowledgement.

Best wishes,

Irene
