# DA TECH IS ...

## THE FROZEN WORLD OF FROSTBOUND FUNNIES

### EDITOR'S NOTE

Once again, Michigan Technological University and Blue Key National Honor Fraternity welcomes hundreds of guests for the annual Winter Carnival extravaganza.

We of the PICTORIAL staff hope that all of you enjoy this Carnival time and trust that this book will serve as a pleasant reminder of the Carnival festivities and your stay at MTU.

Have a good time,  
The PICTORIAL staff

# Winter Carnival is . . .

## BLUE KEY

Ever since Blue Key took over the planning and execution of the Carnival in 1934, they have increased the number and quality of Winter Carnival activities. This year's theme of "The Frozen World of Frostbound Funnies" has equalled and surpassed past performances by Tech students and Blue Key.

The skits, the Queen's coronation, special events and the running around that goes on during Carnival Week all take immense planning on the part of Blue Key. The Carnival has changed so much from the circus show on ice in 1922 and the championship hockey game between Houghton and Hancock high schools. Today, it is recognized as one of the world's largest Winter Carnivals with huge snow statues, skits and MTU hosting exciting NIC hockey action.

Most of this reputation is due to Blue Key National Honor fraternity and their hours, weeks and months of hard work, which began in August and in some cases, will not end even after the Carnival. The men of this hard-working fraternity are chosen because of outstanding leadership in both academic and non-academic areas. Again we salute the members of Blue Key for a job well done.

The Executive Board discusses a point

Discussion during one of the meetings before Winter Carnival

Scott Farquhar addresses the meeting

THE MEN OF BLUE KEY NATIONAL HONOR FRATERNITY

and has been . . .

One of the biggest events in the Copper Country started out in the early Twenties with a skating circus show, dancing and band presentations. It progressed over the next few years to have a Queen in a parade and a hockey game between high school rivals-Houghton and Hancock.

In 1934, Blue Key National Honor fraternity began running the Carnival. This was the first year of a Carnival hockey series between Tech and another university. This year it was against the University of Minnesota. The snow statues began being built in 1936 by students and local children on the theme of an organization. For example, the Flying Club would make airplanes while the Electrical Engineers would construct a generator.

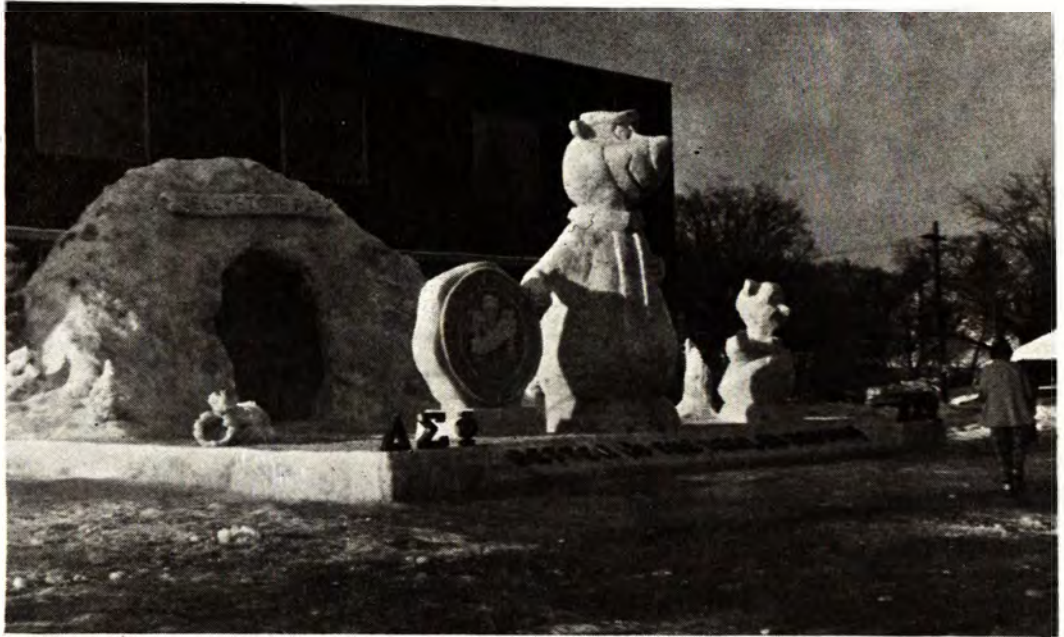

The next decade saw beard competition, ice shows with local stars and amateur talent from all over the world, and the re-instatement of the Queen contest.

Student Council sponsored concerts started in 1962, and all that remained to bring the Carnival to its present number of competitive events was the icicle contest.

Today, in 1975, the MTU Winter Carnival is still as popular as it was years ago and it is getting more and more participation every year.

A Statue from out of the past

GET SET . . .

GO!!!!

**BROOMBALL** — a game where people with normal shoes try to get a ball into a goal using brooms - on ice. FUN !

These young gentlemen are racing each other - not in track shoes, mind you - on skates!

# SPECIAL EVENTS

As Winter Carnival has grown with each passing year, so has the number of events a team could enter to join in on the Carnival festivities. Events like the building of snow statues and the beard contest have been around for a long time, but only recently have the winter sports come into their own as Carnival events.

These events, such as broomball, speed skating and snow-shoeing allow some people who never would have been able or willing to become a part of Carnival. It has also been an area for controversy, as evidenced this year by teams who wanted to enter the most competitive class (Class IV) only for one or two special events. Some of the members of this class were not overjoyed but with the new classification policy voted in in 1973, the move was all right. This should prove interesting for the competition.

## Dogsledding

It's a tough pull

Even the riders have to work

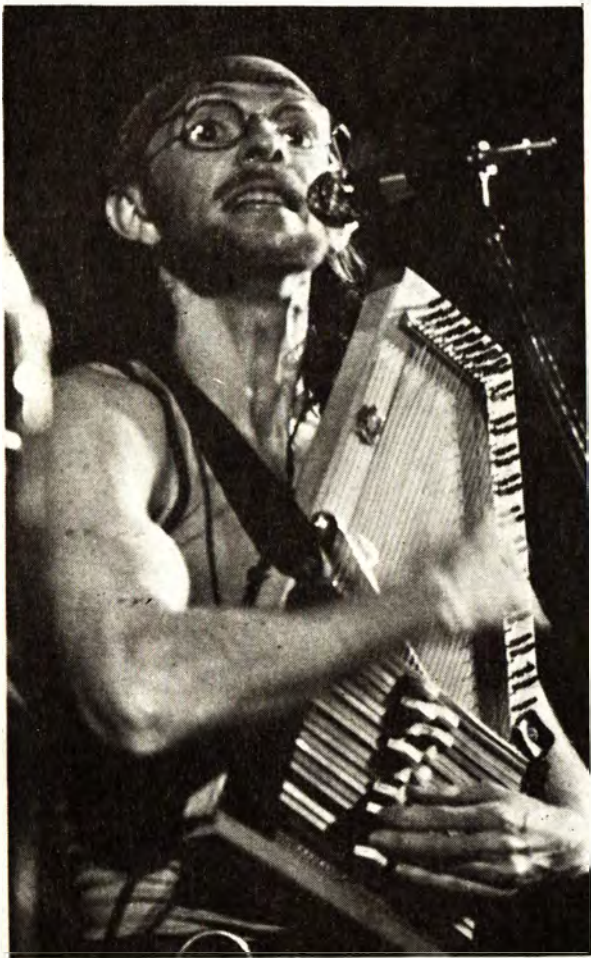

Another unique feature of MTU's Winter Carnival is the annual sending of snowballs to Southwest Texas State University. This practice started because of the inverse ratio of men and women at each school. Five hundred of the snowballs are packed in dry ice and shipped to the Sunny South. The students at SWTSU then have the snowball fight of their lives.

Shown in this picture are Jim Murray and Scott Farquhar of Blue Key and Harold Meese, Dean of Students, getting the packages into the waiting Blue Goose plane.

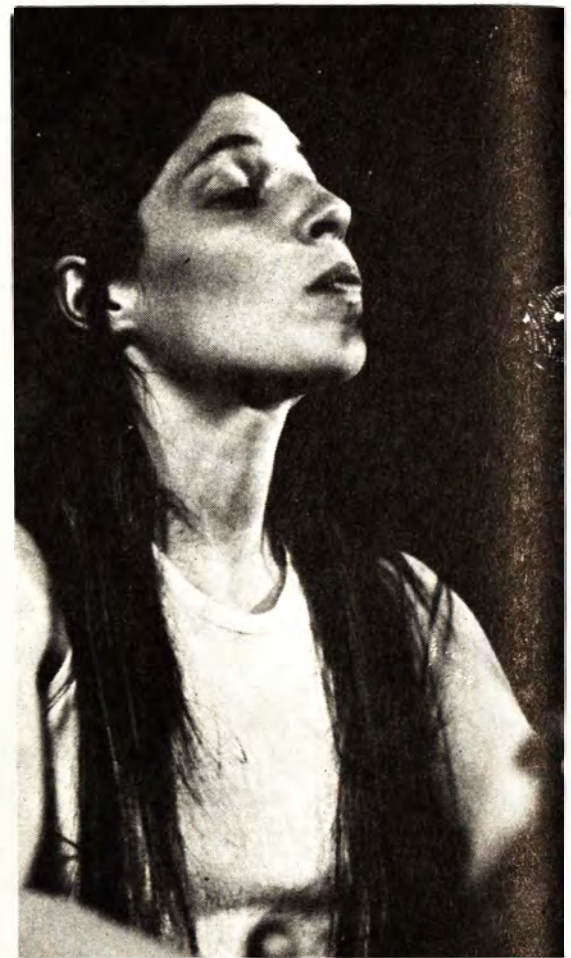

ROGER

WENDY

& SAM

*A concert by Roger, Wendy and Sam, (alias "The Bermuda Triangle") is always special, and always beautiful. At least that's what many people thought after they left the Triangle's concert Thursday night.*

*Playing to a packed Fisher 135, Roger, Wendy and Sam offered unique and different stylings of contemporary and folk material. With Roger's electric autoharp, Wendy's electric bass, and Sam's hoedown fiddle, it was a sound that was not easily forgotten by those who attended.*

## DEODATO

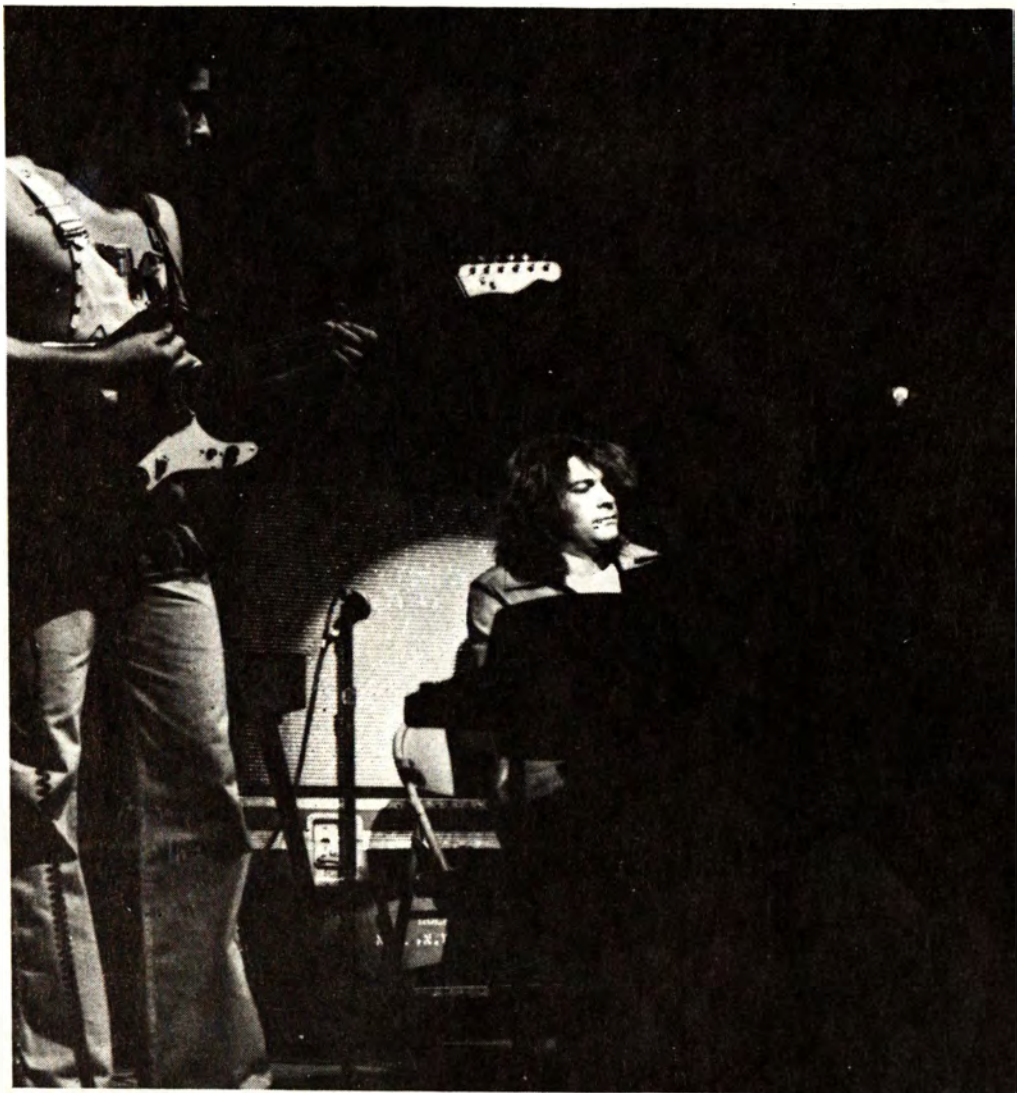

This year's annual Winter Carnival concert starred the intensifying man and band, DEODATO.

Immediately after appearing on the stage, the nine musicians possessed the audience with their abundant instrumental talent.

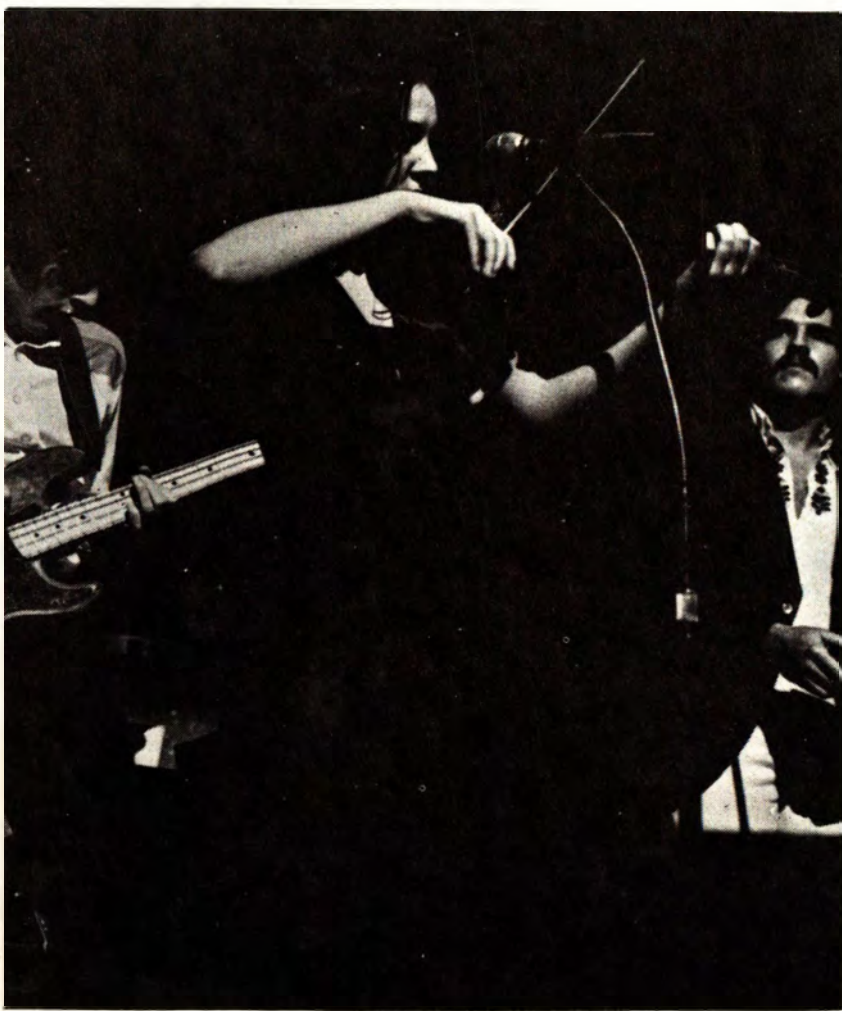

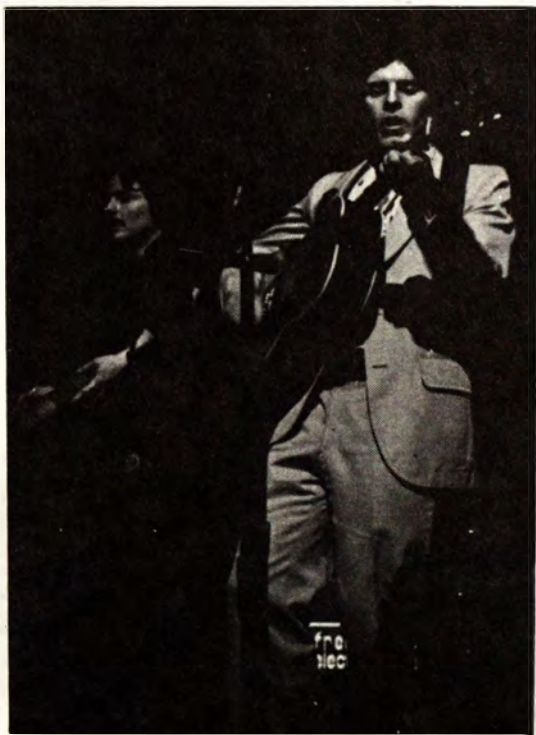

The second number performed focused primarily on the three percussionists, first as a whole and eventually as very individual musicians.

Although (the group) DEODATO played for great time lengths, they continued to capture everyone even during the one point of slight subtleness; a subtleness of melody and tone. But it soon transcended into the typical style that their reputation holds. This certain number also was the implement for spotlighting on Deodato, the man, as he performed a fantastic keyboard arrangement.

No doubt the highlight of the concert was the last number performed - the well-known "2001 - A Space Odyssey." But an additional pre-performance of a six man band, CHRISTOPOULOS, began the concert displaying their keen harmony and talent, including an outstanding violinist.

## CHRISTOPOULOS

# "The Night of Nights"

As the lights dimmed and the crowd quieted, the annual Queen's coronation got under way. The candidates filed one-by-one past the honor guard with their escorts and were introduced by the Master of Ceremonies, Dr. Thomas Wright of the Biological Sciences Department.

Each of the candidates then performed her talent presentation, after answering an impromptu question to see how her poise and personality were doing in a real crunch. The judges left to make their decision, while a group called Brian, Tom, Lori and Dave entertained the audience. Playing songs of varied styles, the group seemed to lessen the waiting time and was asked for an encore. The judges then returned with the decision and the candidates filed back on stage. The air was tense as last year's Queen, Janet Nyman announced Chris Hayes as second runner-up and Ginnie Dulmage as first runner-up. Bruce Abbey thanked all those involved with the show and introduced President Smith, who in turn announced Miss Ann Mary Moore to be the 1975 Winter Carnival Queen. Carnival had begun!

## 1975 Winter Carnival Queen

*Ann Mary  
Moore*

Ann Mary Moore's talent presentation Monday night was a vocal number, "I Can't Say No!", and it seemed as if the judges couldn't either, as they chose her as the 1975 Winter Carnival Queen.

Ann, who is a sophomore from Port Huron, is a Technical Writing major. She was sponsored by the 2nd & 3rd floors of Co-ed Hall. The coronation kicked off the Carnival festivities, which will culminate at the Sno-Ball Saturday night in the Union Building.

MTU President Raymond Smith, escorts the new 1975 Winter Carnival Queen — Ann Mary Moore past the ROTC Honor Guard

Moments after being announced queen, Ann Mary Moore is crowned by Janet Nyman, last year's queen

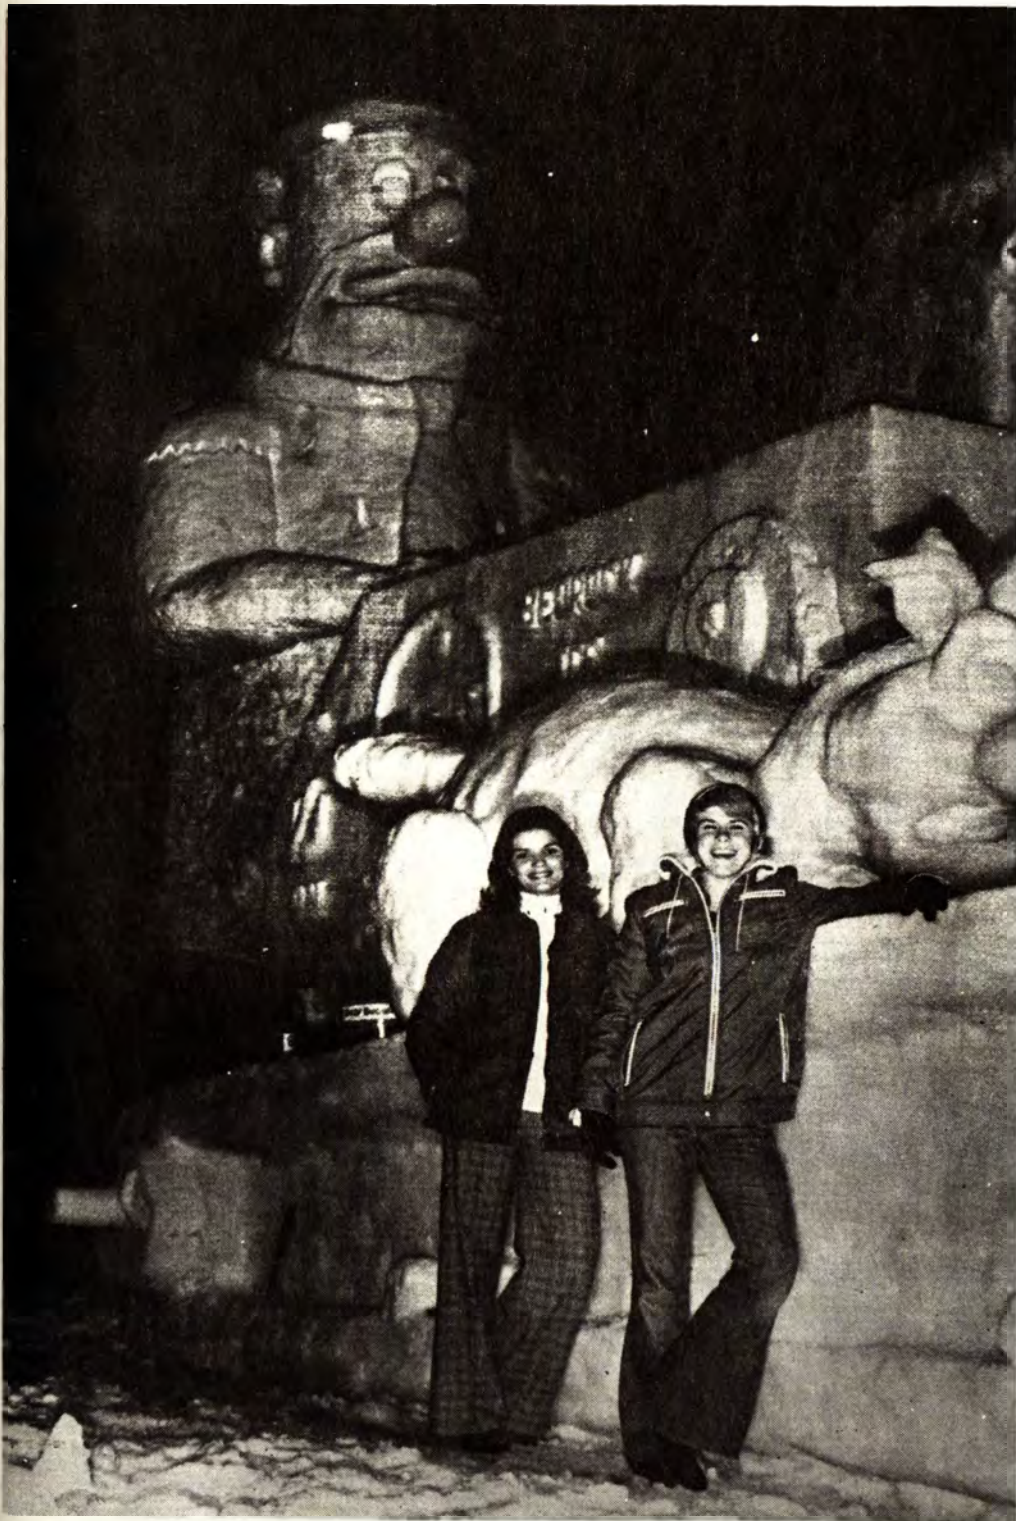

# Miss Southwest Texas

Arriving Wednesday night was the exchange Queen from SWTSU, Anne Lochte. She is here to participate in the MTU Winter Carnival festivities which began with the crowning of our own queen, Ann Mary Moore Monday night. Hailing from San Antonio, Anne was selected as the All-Campus Beauty Contest winner from among 40 girls who were in the pageant.

Anne, who is a 19 year-old sophomore majoring in health education at Southwest Texas State University, is also a Lieutenant in SWTSU's well-known precision dance and drill team.

Welcome to Michigan Tech, the Land of Ice and Snow, Anne !

## SEASONS

Winter . . . Snow . . . Ice . . . Tech.

There are other seasons; like Spring . . .

it begins with a drop from a  
melting icicle, soon it's a trickle and  
then with a rush—

the buds burst open, the grass comes  
up and life is renewed.

Spring warms to Summer . . .

sultry mornings bring on lazy, hazy days.  
Dusky twilights and warm evenings after  
the sun goes down.

Autumn . . .

The air gets tangy and crisp. The wind  
chills and it's football weather. All too  
soon colorful leaves begin to fall and days  
shorten.

All is bare.

Winter . . . Snow . . . Ice . . . Tech.

# TECH HUSKIES OUT-PLAY GOPHERS, 10-3

Scott Jesse vs. Ken Turko

Steve Bouchard and Chris Ferguson trying to score

Dana Decker and another Tech player at the goal

Trying to separate the one-point difference between them and second-place MSU, the Huskies kept their 7-game winning streak intact by overpowering the Gophers, 10-3, in the first game of the Winter Carnival series.

Because of a bad knee injury, Jim Warden was unable to play as goalie for MTU, so freshman Bruce Horsch was in to protect Tech's goal.

The first point on the scoreboard was only 1 minute and 35 seconds into the game with Tech's Bob D'Alvise scored, assisted by Paul Jensen and Bob Steele as the crowd of alumni, students and guests went wild. The first of Tech's seven penalties was also early in the period as Dana Decker was called for tripping at 5:57.

Then at 13:30 Bob Steele scored a backhand goal off a shot from Bob D'Alvise making the score 2-0. Less than 2 minutes later, Steve Bouchard, who was left completely unguarded, took a pass from Chris Ferguson and Pete Roberts, waited until a hole opened and put the puck in to make it 3-0.

A bit of sloppy passing developed into D'Alvise's taking Rick Heinz, the Gopher's goalie, one-on-one at 19:05 to bring in another point for Tech. A sieve was thrown on the ice by fired-up Tech fans to show just what they thought of the U. of Minn.-Duluth's defense.

The Gophers changed goalies for the second period, hoping that Ken Turko would better guard their goal and he did, allowing only one goal during the second period at 14:58 by Dana Decker, who was assisted by Steve Bouchard and Stu Ostund, all freshmen indicating how good the Huskies should be for the next four years.

The second period was marked by tighter defense with good fore-checking by U. of Minn.-Duluth containing the Huskies and this, combined with three Tech penalties, kept the period low-keyed as far as offense went.

The third period was prefaced by the traditional swaying to "the Copper Country Anthem" by a crowd of 4,291 Tech fans. This was a high scoring period with a total of 8 goals scored, three by the U. of Minn.-Duluth and five by Tech.

Mike Zuke scored an unassisted goal at 2:05. Two minutes later we traded a goal to U. of Minn.-Duluth scored by Craig Arvidson assisted by Rodney Jones. Thirty-seven seconds later Chris Ferguson scored, aided by Pete Roberts and Steve Bouchard.

Another trade-off goal by Gopher Tom Milani made the score 7-2. After some hard hitting skating Mike Zuke took a wide open shot assisted by George Lyle and Steve Jensen at the goal and beat goalie Ken Turko to bring the score to 8-2.

The U. of Minn.-Duluth's last goal came at 12:16 by Rod Jones, Craig Arvidson and Joe Nelson. Tempers flared between the two teams and Bruce Abbey and Tom Milani got 4 minutes apiece - 2 for high-sticking and 2 for roughing.

With both teams short, Bob Lorimer aided by Bob D'Alvise scored at 18:01 to make it 9-3.

With only 1 minute and 12 seconds left in the game George Lyle, unassisted, made it 10-3, Tech over U. of Minn.-Duluth. A great ending to an exciting game!

Lyle again putting 23 up against the boards

George Lyle (10) beats Gopher goalie, Ken Turko

Bouchard and Roberts congratulated by Bob Lorimer

SCORE! Ferguson, Roberts and Bouchard

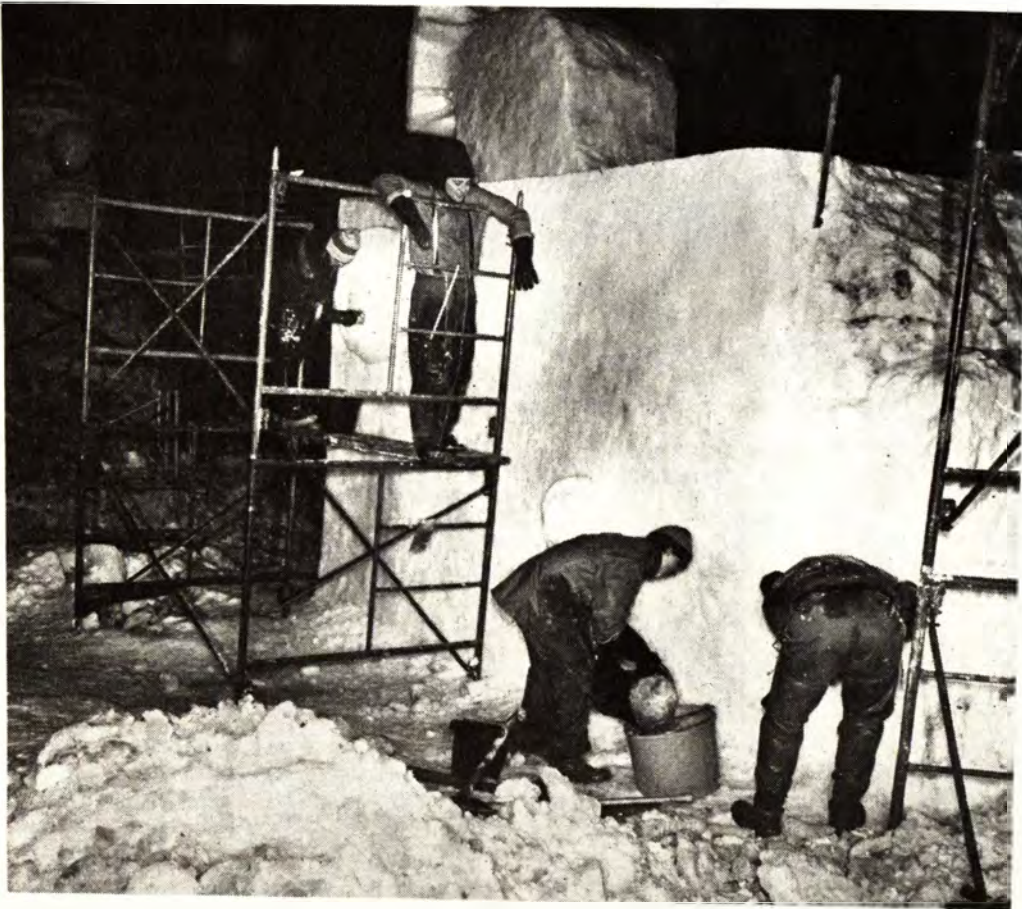

George Lyle and Steve Jensen team up to to deck a UM-Duluth player

# WINTER SPORTS

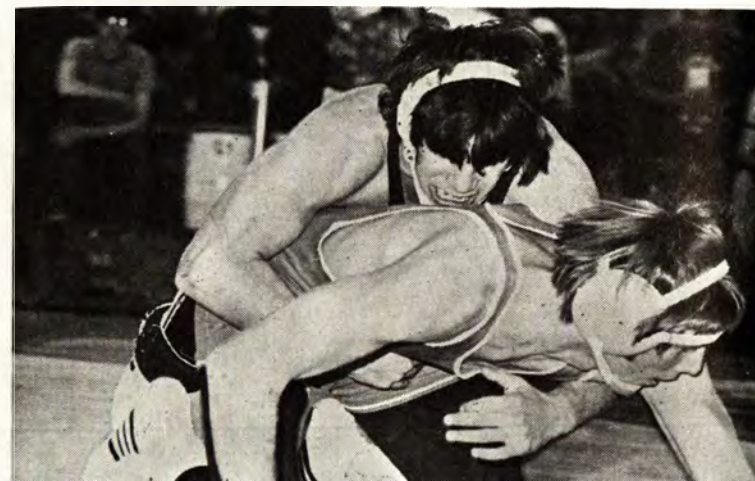

## Wrestling

With a five-and-two record on the mats, the wrestling Huskies are making a fine showing in Tech's sports program. The team has great potential and a sure winner in Randy Smith, a team captain, who now stands undefeated - 7-0 in dual matches. Smith at one point, had won five consecutive matches by pinning his opponents. Close behind the senior champion are team captain, Ken Flood, and Steve Penley, both sporting 6-1 season marks so far.

Coach Elrite felt that the toughest meet so far this year was against Northern Michigan University, who is looking for a National ranking. The coach was a bit optimistic, but nonetheless, predicts a good season and some tough matches coming up. Next year promises to be another good season, because 11 of the 16 team members are frosh and some planned recruiting is expected to attract new champions to Tech's mats. Overall, the Huskies have a chance for an excellent record this year and could produce several conference champions.

to control his opponent

## Swimming

The Huskies' swim team boasts an overall 2-3 record so far this season. The Huskies have four meets left before the conference challenges and will play host to Northland and Northern.

Outstanding swimmers are freshman Gary Pike in the backstroke and individual relay, sophomore Bob Osidoff and senior Bob Heels, showing good form and speed in the 50-yard and 100-yard sprints and junior Bill Kessell specializing in the 1000-yard freestyle.

Coach Datsun indicated that with little work, the club has a chance for a possible third place ranking in the conference. Southwest Minnesota State, last year's conference champs, is strong again this year and remain one of the strongest opponents. Datsun also indicated a good return of team members next year as the team is only losing two swimmers and a diver through graduation.

Dave Luytzas breathing during his free-style

## Basketball

The basketball Huskies started off the year with two quick victories building up the fans' confidence in the young Tech team. Ten out of the fourteen players are freshmen and sophomores, indicating a good resource for the coming years. Leading scorers are Matt Scott, averaging 12 points a game, followed by Mike Ruecker with a 10 point game average. The leading rebounders are Matt Scott and Steve Peterson, having 6.8 and 6.2 averages respectively. Leading conference scorers are Mike Ruecker with a 11.5 point per game average and Matt Scott with a 9.8 point per game average.

Pete Schenke looks good, and has been playing well in the last few games, so with a little scoring from the middle, Tech will have a good, all-round basketball club. Coach Gappy feels the Huskies have good talent but because they are a young team, they must get used to playing together. He predicts a fine season ahead and a few good teams in the coming years.

The Huskies put on a good showing in Saginaw, by pushing to the runners-up position in the Saginaw Big Brothers Tournament, dropping their last game to Lake Superior State College.

Tech stands at a 4-9 season record and a 1-5 conference mark. Winona looks pretty tough in the conference and still remains the hardest team to beat. The Huskies host the next four out of six games and with the improving overall performance, it looks like a good season ahead.

In a crowd under the basket is Tech's Mike Ruecker, wearing number 32, Mark Kilbourn, number 24, and Steve Peterson, 54

Up for the rebound is Dan Brown, with Mike Ruecker waiting to fast break

## Skiing

The Huskies on snow started the season with a victory in their first meet at Mont Ripley. Coach Lonsdorf indicated that the team has more depth than it has had in quite a few years and he expects an excellent season this year. Next year looks equally good, as six out of the ten team members are freshmen. Keith Everson, Richard Schalter and captain Gary Willis show exceptional poise and control on the snow and the Coach predicts a fine season for these people and the entire team.

Terri Salani shows excellent ability on the Women's team, which also started a good season by capping a runners' up position in the Governor's Cup Race. The women did a fine job by edging out six other schools for the second place mark.

PRESIDENT OF THE UNITED STATES OF AMERICA  
GERALD FORD

THE WHITE HOUSE  
WASHINGTON

February 3, 1975

The President has asked me to convey his warmest greetings to the students of Michigan Technological University. As one who still considers Michigan home, and who is a winter sports enthusiast, he regrets that he cannot participate in your Winter Carnival and hopes that you will accept this letter as a token of his interest in your activities.

Best wishes for a most memorable and enjoyable week.

*James A. Lovell*  
Captain James A. Lovell, USN (Ret.)  
Consultant to the President  
on Physical Fitness and Sports

Earlier this term the MTU Republican Club sent President Ford some information concerning Michigan Tech and its Winter Carnival. Included in this information was an invitation to the President to attend the Carnival festivities. The President said tentatively that he would like to come but his Appointment Secretary indicated that due to previous commitments he would be unable to attend.

Since the information stressed the pure air and invigorating climate of the Copper Country and since the President is a known skiing enthusiast he directed Capt. James Lovell to send a letter of regrets. Capt. Lovell, former astronaut that completed the first around the moon flight is the director of the President's Council on Physical Fitness. His letter is included above.

#### EDITOR'S THANK YOU

As the final pages of the PICTORIAL are put together, the books are stacked to be sold and the people ready to buy them, I look back on past two months and wonder how we did it.

Before Christmas, I looked through hundreds of slides to find the right color pictures for the covers and the four-page color section. Thanks here go to Joe Kirkish and Lee Pagel for their fine photos.

Then we started to plan the book's format — what goes where, when, how and why. Mr. Norman Lassila, nicknamed affectionately, "Norman the foreman", deserves more thanks than I could begin to give him, even if I thanked him on every page of the PICTORIAL. This gratitude also extends to ALL the people at the Book Concern in Hancock who printed this book.

Then the deadlines had to be met for the advertising. Bob Waldron, the Business Manager of the LODE and PICTORIAL, did his absolute best to get ads where there were none to be had. Drumming up ads in this time of economic pessimism in the business world is next to impossible, but he did the impossible and I thank him for it.

Then came the times during the last two weeks when I didn't go to my classes, trying to get the book done. I appreciate the breaks my teachers gave me concerning tests and homework. I would also like to thank the people in the LODE office who put up with crawling over my mess of glue, pica sticks, pencils and paper. Thanks here go to Peggy, Rod, Diane, Elaine, Tom, Bob, and Steve.

Thanks also go to the photographers for their late hours, quick developing, and all the "normal crises" that go with taking pictures. The book would be blank without them. The writers also need some recognition for their fine write-ups and tight deadlines. Again, I thank both groups.

My Production Staff of Elaine Phee (Phie, Phoe, Phum), Nancy Bourbour, Carolyn Schmelzer, Carl Brahce, Jane Nordin, as does my roommate Venita Anderson, alias my answering service, who put up with late hours, tiredness, and my complaining about everything under the sun.

But above all else, I must thank Greg Miscisin, for an excellent job as Photography Editor. A PICTORIAL is only as good as its pictures, and its pictures are only as organized as its photo manager. The book wouldn't have been produced without him. I am forever indebted to him for his suggestions, help and hard work.

Local businesses who purchased ads in the PICTORIAL have my thanks as does Blue Key National Honor Fraternity for all their assistance and help. If there is anyone else I have forgotten, I apologize, so many people helped with this book and made it as good as it is.

Thank you all very much,  
"Stub"

P.S. Now that the book is done I can — Sleep, eat regular meals, sleep, go to my classes, sleep, party on weekends, sleep, study, sleep. . . . .
